NOTES

Order two or more frames of the same type for 10% discount.

All frames include plain glass and are made to hang unless otherwise ordered.

Heatseal provides a tough matt or lustre finish which requires no glass.

Mounting is onto framers board between 1000 and 2000 micron thickness depending upon picture size.

Overlays are priced for outside dimension with single aperture. Extra apertures are at £3.00 each.

WARNING

Some materials are unsuitable for heatsealing or drymounting. We will advise you if we believe your artwork may be damaged but it will not always be possible to tell by prior inspection. By instructing us to proceed with mounting or heatsealing you accept responsibility should damage occur as a result.

Artwork often needs to be trimmed. Please mark for cropping unless you wish to accept our judgement.

When asked, we are happy to advise on choice of frame and finish. Please be aware that all such advice is subjective, so we will not provide refunds or replacements for work ordered as a result of such advice should you later decide you dislike the result.
